

SAFETY DATA SHEET

SpillEater Natural Spill Absorbent

Note: The material in this absorbent is not listed on OSHA Occupational Chemical database and therefore is not a chemical; therefore, this SDS is for informational purpose only.

1. IDENTIFICATION

Product Name: SpillEater Natural Spill Absorbent

Manufacturer:

SpillEater Inc./Multigraphic Industries

10 Strecker Road

Suite 1600

Saint Louis, MO 63011

+1-800-930-9898

Product Use: Absorbs Liquid Spills

Emergency Phone Number: +1-800-930-9898

2. HAZARD(s) IDENTIFICATION

Hazardous Identification Information: The material in this absorbent is not listed on OSHA Occupational Chemical database and is not a chemical; therefore, this SDS is for informational purpose only.

3. COMPOSITION/INFORMATION ON INGREDIENTS

A natural agricultural cellulose material for the absorption, encapsulation, bioremediation of hydrocarbons and liquid spills.

4. FIRST-AID MEASURES

Inhalation: Move to fresh air away from dusty area.

Ingestion: Rinse mouth with water. Do not induce vomiting. If discomfort continues, seek medical help.

Skin Contact: If irritation results, rinse with water. If discomfort continues, seek medical help.

Eye Contact: Irrigate eyes with water for ten minutes. If discomfort continues, seek medical help.

Notes for Physician: Treat symptoms as needed.

5. FIRE-FIGHTING MEASURES

Extinguishing Media: Use any suitable fire extinguisher.

Special Hazards in Fire: Product contains a known fire suppressant and will only ignite at high temperatures.

If burning, firefighters should treat as a wood fire.

Hazardous Combustion Products: No hazardous decomposition products are known. Combustion by-products include carbon monoxide, carbon dioxide and acrid smoke.

Special Protective Equipment for Firefighters: None

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wear appropriate protective equipment to proven exposure. For more details See Section 8.

Methods for Cleaning: Sweep up and dispose of in acceptable waste.

7. HANDLING AND STORAGE

Handling: Material is not classified as dangerous or hazardous. No special handling requirements.

Storage: Keep in cool and dry environment. Avoid creating dust. Spontaneous combustion risk is low as product contains a known fire suppressant.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering: No special ventilation is required under normal use.

Personal Protective Equipment:

Eye Protection: None under normal conditions. Follow OSHA regulations if dust level exceeded.

Skin Protection: None under normal conditions.

Respiratory Protection: None under normal conditions: Follow OSHA regulations if dust level exceeded.

Other Protection: None under normal conditions.

Hygiene: Avoid inhalation of nuisance dust.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Free flowing tan in color agricultural powder

Odor: None

Change in Physical State: Boiling (Melting Point): Does not apply.

Thermodynamic Information: Flammable ignition above 500 degrees.

Physical Parameters: pH above 3 and density 1.15

10. STABILITY AND REACTIVITY

Conditions to Avoid: Stable and non reactive.

Materials to Avoid: None known.

Dangerous Reactions. None known.

Hazardous Decomposition Products: None, when used and handled as intended.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:

Swallowed: Product is natural cellulose. Agricultural products are not considered harmful.

Eye: Not likely to cause serious eye damage or irritation.

Skin: Not likely to result in skin corrosion/irritation.

Inhaled: Inhaling of excessive dust may result in irritation to the mucous membranes of the nose, throat and respiratory tract. OSHA approved dust mask should be used when appropriate dust levels are exceeded.

Chronic Toxicity: No known mutagenic or carcinogenic characteristics.

12. ECOLOGICAL INFORMATION (NON-MANDATORY)

Aquatic Toxicity: No data available.

13. DISPOSAL CONSIDERATIONS (NON-MANDATORY)

Product is natural celuose material and may be discarded into normal waste or incinerated by approved methods. If the material has been used to absorb spill, follow state and local disposal regulations. The material has been tested to "treat" hazardous materials.

14. TRANSPORT INFORMATION (NON-MANDATORY)

Dangerous Goods Class, UN Number, Hazchem Code, Poisons Schedule: None Assigned

15. REGULATORY INFORMATION (NON-MANDATORY)

Exposure Standards: OSHA-PEL: mg/m^3 (cellulose – total dust), 5 mg/m^3 (cellulose – respirable dust)

16. OTHER INFORMATION & CONTACT POINT

This product is manufactured from cellulose. This product is completely biodegradable. The material contains naturally occurring bacteria and fungi indigenous to agricultural environments. The bacteria and fungi are not man-made, genetically modified or cultured in any way. None of the bacteria or fungi are considered harmful to humans.

ADVICE NOTE: This Safety Data Sheet (SDS) summarizes our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user must review this SDS and consider the information in the context of how the product will be handled and used in the workplace. When used for liquid spill clean-up, sorbents tend to take on the characteristics of the liquid they have absorbed. Thus, always consult the liquid prior to absorption. If clarification or further information is needed to ensure that an appropriate risk assessment can be made the user should contact this company. Our responsibility for this product is subject to our standard terms and conditions a copy of which is also available on request.
